

WEEKLY REPORT

Work done in last week (Attach supporting Documents):

1. Completed course in coursera regrading AWS Fundamentals
2. Migrated local MySQL database to aws MySQL database
3. Trying Deploying application in EC2 ubuntu server
4. Half course on AWS security completed.
5. Setup aws environment in ubuntu CLI

Reason for incomplete work:

1. EC2 is not supporting sending mail from python script for security reason and trying to implement AWS SMS for the same

Plans for next week:

1. To complete AWS security related course.
2. Learn DynamoDB and implementing on current project.
